Celebrate National Pollinator Week June 19-25

Take a self-guided tour
of community
pollinator gardens

Events

The Self Guided Tour

June 16 - June 24

Find the seven highlighted gardens in this brochure! Take a rock bee from Fowler Library and bring it to the garden of your choice!

Native Plant Transplant Workshop

*Wednesday, June 21 at 10 am
Fowler Backyard*

Our seedlings in our winter seed sow milk jugs have sprouted -- now what? Join Isabel Bailey of the Pollinator Health Advisory Committee to learn how to transplant. If you want hands-on advice, bring your jugs!

Bees and Bricks

*Wednesday, June 21 at 4 pm
Fowler Backyard*

Come paint bricks for our pollinator garden border and rock bees to bring to the pollinator gardens throughout Concord.

Pollinator Week Family Storytime

*Saturday, June 24 at 11 am
Fowler Backyard*

Celebrate with stories and songs and help us make a rock caterpillar for Fowler's garden and rock bees to take to yours!

West Concord Gardens

Fowler Branch Library

Visit the backyard at 1322 Main Street to find this garden which was a community collaboration in September 2022. Stop inside for more native plant resources, too!

Harrington Park

The garden is at the end of a dirt driveway just west of the Harrington House on Harrington Avenue by the "Harrington Park" sign. Take a break at the picnic table after admiring this full-sun garden, which was planted in 2022.

Baker Avenue Boat Launch

From Route 62 in West Concord, take your first left off of Baker Ave., and park in the lot to explore the shade-tolerant native plants in this garden.

Concord Center Gardens

Barrett's Mill Conservation Land

Parking and trail access is just east of 363 Barrett's Mill Road. The pollinator garden is to the left of the parking lot behind the fence.

Barrett's Mill Farm

The pollinator garden is between the sign and the red barn at 449 Barrett's Mill Road and was planted in 2020. Be careful of poison ivy in this garden!

Heywood Meadow

To see a pollinator meadow progressively planted since 2015, visit this garden at Lexington Rd. and Heywood St., (closest to Concord Center).

Concord-Carlisle High School

This garden is at 500 Walden St. across from the tennis courts. CCHS Green Team students planned and built this butterfly-shaped garden in 3 phases from June of 2021 to 2023.
