

A/C Weighted

Profession measurement mode, precise measurement

A weighted suitable for environment noise detection

C weighted suitable for industrial noise detection

FAST - 0.125S/Times - more sensitive

SLOW - 1S/Times - more stable

NOISE RANGE

0-20dB	Very quiet, hardly feel
20-40dB	Quiet, like whispering softly
40-60dB	General, ordinary indoor conversation
60-70dB	Noisy and nerve-damaging
70-90dB	Very noisy, damaged nerve cells
90-100dB	Increased noise and hearing loss
100-120dB	Unbearable
Above 120dB	Extremely deaf
