

Summer Maker Program 2024

This summer, the Workshop will be offering its own “summer maker program” to encourage folks to use our services! We tried to keep it super simple. Here’s how it works:

Get a Card!

Patrons of any age can pick up a **Summer Maker Program card** at the Workshop desk during open hours or at Workshop programs anytime from **June 1 to August 31**. They look like coffee loyalty cards, and they work the same way!

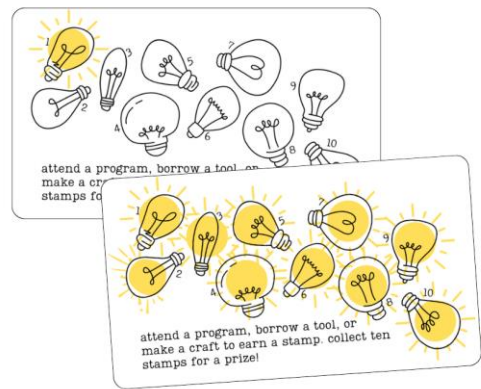

Earn Stamps!

On the back of each summer maker program card is 10 lightbulbs. **Once per day**, a patron can:

- **Attend a Workshop Program,**
- **Borrow a Workshop Tool, OR**
- **Make a Craft** using the Workshop’s craft carts

to **earn a stamp** that will light up one of their lightbulbs. The stamp will live at the Workshop desk. They cannot earn more than **one stamp per day**, even if they do all three tasks.

Earn a Prize!

When a patron has earned **10 stamps**, lighting up all of their lightbulbs, they may choose a prize from our **prize cart**! The prizes are all materials that can be used with the Workshop’s tools:

- **Iron-On Vinyl** for creating custom tee shirts, hats, bags, etc. with the Cricut machines,
- **Fancy Acrylic Squares** for cutting on the laser cutter,
- **Glow-in-the-Dark PLA** for printing on our 3D printers,
- **Jigsaw Puzzle Blanks** that can be printed with our sublimation printer and heat presses,
- **Needle-Felting Kits** for use with our needle-felting tools, and
- **Mini Embroidery Hoop Charms** for use with our embroidery tools.

A labeled container will be available for collecting completed cards.

Repeat!

Patrons may repeat the program as many times as they wish from **June 1 to August 31**, but they can only earn **one stamp per day**.

OKAY! Material Prize Stickers

The **Fancy Acrylic Squares** and **Glow-in-the-Dark PLA** are labeled with “OKAY!” stickers so staff know they are safe to use on our machines.
